Education

- **University of Oxford** Oxford, UK
Master of Science in Computer Science, Grade: Distinction | Thesis won 2 international awards Oct 2020 – Sep 2021
 - **Amrita Vishwa Vidyapeetham** Coimbatore, India
Bachelor of Technology in Computer Science & Engineering Jul 2016 – Jun 2020
GPA: 9.91/10, 1st Class, Distinction, Gold medalist for highest graduating GPA
-

Experience

- **McDonald's Corporation** Chicago, Illinois | *Sept 2022 – Present*
Manager, Engineering Tech Lead, Commerce Platforms (Ordering Core Services)
(Sept 1st 2025 – Present)
 - **Leading Technical & People Excellence:** Leading 6 engineers while driving architecture, design reviews, technical risk management, production operations. Fostering continuous improvement and advocating for the responsible use of emerging AI engineering tools to enhance productivity, innovation, and engineering quality.
 - **Driving Global Scale & Reliability:** Own the end-to-end delivery of C#/.NET backend services in over 45+ countries (and counting!), leveraging RESTful APIs, microservice architecture, NoSQL DBs, Kafka to deliver reliable, scalable solutions.
 - **Delivering High-Impact Global Launches:** Led 6 major launches across global markets, partnering with product, engineering, legal, and local teams on tax, regulatory, compliance, production readiness, and operational stability.**Software Engineer II, Commerce Platforms (Ordering Core Services)**
(Oct 1st 2023 – Aug 31st 2025)
 - **Delivering Reliable Software at Scale:** Developed, debugged, and deployed backend features powering digital ordering across 50+ markets, designed a feature to support 30+ meal/offer pricing parameters, 3rd party order integrations, tax requirements, real-time kitchen order status tracking. Nominated to lead market adoption, accelerating launches, coordinating with local-market stakeholders to ensure production readiness and stability.**Software Engineer I, Commerce Platforms (Ordering Core Services)**
(Sept 12th 2022 – Sept 30th 2023)
 - **Core Backend Engineering:** Developed and maintained RESTful APIs for digital order fulfillment across global markets; delivered 10+ offer/promotion templates, built 20+ Postman collections for automated verification, strengthened test coverage across 5+ services, and implemented tax and regulatory requirements across multiple global markets.
- **Software Engineer, Matician, Inc.** Mountain View, California | *Nov 2021 – Sept 2022*
 - **Perception Software Team:** automated robot camera calibration, reducing human-involvement needed from >1.5 hours to 5 minutes per robot; designed autonomous docking algorithm achieving < 4cm translational/negligible rotational error.

Select Projects

- **Graduate Thesis Project** (Computational Cardiovascular Science group at Oxford)
 - Automated software-based approach to classifying drug-induced heart abnormalities; achieved 99.87% accuracy.
- **Undergraduate Final Project:**
 - Developed deep learning architecture and software to enhance image analysis with applications in wildlife detection
- **IBM's Data Science Professional Certificate - Capstone Project:**
 - Identified 3 most ideal locations to establish a hospital in London, using data collection, analytics, and machine learning.
- **Fuzzy Logic based Heart Disease Predictor:**
 - Engineered a user-friendly fuzzy logic software system to predict heart disease w/ Python, scikit-fuzzy & matplotlib.

Programming Skills

- **Skills/Technologies:** RESTful APIs, Microservices, NoSQL, Kafka, Unit/Integration Testing, CI/CD, Git/GitHub, Postman, Production Debugging & Observability, Agile/Scrum, AI-Assisted Software Development & Prototyping
- **Languages:** C#, Java, Python, C/C++, JavaScript, PowerShell, Shell Scripting

Publications – My research publications include 1 book chapter, 6 conference proceedings and a poster.

- Please see my Google Scholar profile here: [\[link to profile\]](#) for a complete list.
-

Recent Certifications

- Google Cloud Certified Generative AI Leader Feb 2026
- Google Advanced Data Analytics Certificate May 2025
- Google Cloud Certified Cloud Digital Leader June 2024
- Selected to represent McDonald's Software Team at the Grace Hopper Celebrations Nov 2025, Sept 2023
